A Message to Our Friends

The 1955 growing season was an excellent one for gladiolus and Seabrook Nurseries. We are very proud of the plump, clean bulbs harvested last fall. Without fear of contradiction we are confident that the blooms from these bulbs planted in your garden will make you the admiration of your friends and neighbors.

Many people — gladiolus connoisseurs, flower lovers, and color photographers — visited our fields last summer. They were enthusiastic about the acres of glads in full bloom forming a colorama that defies description. Many were able to select varieties by color for their 1956 gardens. We hope you can stop and see us next summer. It is convenient to do this because we are on the main line of vacation travel on U. S. Route 1, one mile north of the Massachusetts line.

We are continuing our policy of giving you the most for your money. This means no elaborate full-color catalog so that we can keep prices down on both variety listings and mixtures. We hope you can place orders early to avoid disappointment.

Cordially yours,

Seabrook Nursery Folks

1956 INTRODUCTION

LIZFAN (561) C. Everett

A blend of red-purple and off white to produce a refreshing tone related to magenta but more refined. A deeper tone of the same color at the throat of the blossom is a rich velvety accent of red-purple. The vein through this accented area appears gold by contrast, adding greater beauty to the entire blossom.

A Gladiolus of exquisite beauty, both in proportion and in color. The petals are graceful, with just the right amount of fringe effect to enhance the crisp turn of the rest of the petal.

Wide open 5 inch florets, 16—17 buds, 6 open with 6 showing color. Field height 5½ feet with 28 inch flowerhead, thin wiry stem. Bulblet production and germination are excellent. Will make money for any grower. We cannot cut enough for our florist trade, they like it so well. Foliage healthy and vigorous.

L \$1.00 Each, M 75c Each, No Small, Bulblets 10-\$1.00, 100-\$6.00.

Growers' Unit 5 Large, 10 Medium, 100 Bulblets — \$18.50 Value for only \$12.00.

If you are a grower or Hobbyist don't pass this glad up. You will be sorry when you see it in your neighbor's garden.

GUARANTEE

We guarantee to do everything in our power to satisfy our customers. We guarantee our bulbs to be clean, free from disease and insects. Claims and complaints in regard to bulbs should be sent to us soon after receiving the bulbs. If blooms are not true to name, of course, you can make claims for that only at time of blooming. If this should occur we will make every effort to reach a satisfactory settlement with you, our customer.

Our business has been built on satisfied customers and we want to continue to merit your satisfaction.

The bulbs you harvest, we are unable to guarantee. Unsatisfactory growing conditions or disease in your soil are beyond our control.

BULB SIZES — The retail list contains three sizes —

Large, 1 1/4 inch up Medium, 3/4 inch - 1 1/4 inch Small, 3/8 inch - 3/4 inch

Large size bulbs give the largest bloom. However, medium sized bulbs will give excellent spikes about 75% as large. Most small bulbs will bloom and at the same time grow fine bulbs for the following year.

UNLABELLED COLLECTIONS AT PREPAID PRICES

Long famous for the excellence of our mixtures, we are proud of the unlabeled assortments offered this year at truly amazing savings. All bulbs are clean and healthy, ready to give you fine flower spikes. All assortments are graded by size.
